**2. MINUTES:**

None to sign.

The following application was granted: LW/09/0889 King George V Recreation Ground. Construction of hard play area to create a basketball/netball court including installation of basketball backboards and rings and erection of fencing for Plumpton Parish Council

The following application was refused: LW/09/0891 Erection of a linked porch between existing barn conversion and approved garages.

**3. APPLICATIONS**

The following application was discussed:

LW/09/1059 Land adjoining Osborne Villas, Station Road. Renewal of planning approval LW/07/0621 for erection of a three bed detached dwelling including addition of velux window and sun pipe to rear roof slope for Mr Adams.

PC would like to re-iterate their previous comments for this application: Approval has already been given for an attached dwelling. Dwelling will not sit comfortably on the site. Over intensive use of an extremely narrow plot. Does not fit in with the surrounding street scene.

The PC would also comment: materials used should match the two cottages adjacent to the south; this house would not be in keeping with houses nearby; they are disappointed that this was approved after the PC had approved an attached dwelling.
