**Report**

The theft of electrical cable during the recent works to modernise the power system was far more extensive than reported at the time and a whole list of incidents being published in November's Parish Mag is quite horrifying.

I have had contact with PCSO Steve Knowles on several occasions and he has promised to maintain contact.

I attended a meeting at Lewes Police Station to see a presentation on Streetwatch. Sussex Police is supporting the initiative and Lewes District would like to use Plumpton as a pilot scheme. Chief Insp Natalie Maloney chaired the meeting which was also attended by Carole Nicholson (AiRS), Trevor Leggo, PCSO Knowles, two other police officers, a couple of active participants from Petersfield and me. Ali Christie and Raymond Young were invited but did not attend.

I will speak further about the scheme at the November meeting.

On the subject of Neighbourhood Watch, I have again spoken with Ali Christie and he has a number of ideas going round in his head, including the formation of a network of area coordinators.
