- Cllr JB advised Council prior to the meeting the path recommendation which was the safest option for parent and child. There was an argument that if the new pavilion project were to happen in 2-3 years then could this possibly be a waste of resources initially as the redesign would incorporate a new path. A cheaper option using a type 1 surface could be put down as a temporary measure but it would not last long, a full concrete path costs £3774. It was agreed that it was a project that would benefit from the CIL money currently sat in EMR. It was agreed to put the cost and approval request on next months agenda. **Clerk to action.**
